Keywords

Software Athena platform Citrix

Solution (public)

Step-by-step guide

- Browse to [1]https://athena.ugent.be.
- Log in with your Ghent University username and password.
- Select the option 'Apps'. The available options depend on your status as an employee or student, the faculty or university service to which you belong, etc.
- Click once on the icon of the desired application.
- Double-click on the downloaded *.ica file.

Result: The *.ica file is automatically opened by the Citrix Workspace app, after which the desired Athena application will start up within a browser window.
Tips
If Chrome asks to open a launch.ica file, click on 'Always open files of this type'.

If Firefox asks to open a launch.ica file, select 'Open with Citrix Connection Manager (default)'.
