How can I add new users or delete users ?

### Solution (public)

Any UGent staffmember who is user of a share can add new users or remove users on that share.

Use the DICT self-service tool for this :

[1]<https://dict-selfservice.ugent.be/>

The modifications are processed and active several times per half day.

If there is a local ICT contact in your department this person can also do this task.
