Keywords

unenroll ufora course site coursesite infosite

Solution (public)

You can unenroll from a course site or infosite by clicking "Unenroll from course" in the menu at the right hand side of the startpage of the course or info site.

It is not possible to unenroll from course or infosites that are tied to your Oasis curriculum.
It is also not possible to unenroll from course sites from your historical curriculum. These sites stay available as an archive.

It might be possible that you are automatically enrolled in a so-called "non-Oasis" site. These enrollments are tied to an enrollment in a (faculty) infosite. You cannot unenroll from these sites.

Please contact [1]Ufora@UGent.be if you have any questions.
