Keywords

finding course site

Solution (public)

If you cannot find one of the official course sites of your Oasis curriculum, then make sure that you are logging in with your UGent credentials.

Make sure that you added the course to your curriculum in Oasis. Syncing between Oasis and Ufora usually takes between 15 and 30 minutes.

If you are enrolled in many course sites in Ufora, it might be possible that you need to search in the course selector menu (icon with 9 squares). That menu is dynamic and automatically shows the sites that you are active in on top (unless you have pinned sites).

You can also use the "My courses" widget that you can find by scrolling past the announcements on your Ufora start page. Each academic year has its own tab.

If you have any further questions, please contact the Ufora helpdesk at Ufora@UGent.be.
